Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The examiner has considered the information disclosure statement (IDS) submitted on 29 May 2008.
2. Through searching the prior art the examiner found PCT WO 2007/061998 with the application number PCT/US2006/044991. The examiner requests applicant to include correspondence over this application in a future IDS for the official record, as applicant has done with other currently examined applications.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 10 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claims 10 and 24 recite the limitation "location comprises an identifier for a message queue". It is unclear how a location can comprise an identifier of a list of messages. When adding claim 10 to claim 8, claim 8 reads that the authorization service is provided at an identifier for a message queue, which is unclear and indefinite.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 1-28, as best understood, are rejected under 35 U.S.C. 102(e) as being anticipated by Gatto et al., USPN 6,916,247.

With regard to claims 1 and 15, Gatto discloses a method for providing an authorization service (CA) in a gaming network including gaming machines (column 2 lines 46-61), the method including publishing the availability of the authorization service on the gaming network, sending service information for a gaming service to a discovery agent (Authentication agent 834) on the gaming network (column 10 lines 9-13), receiving by the authorization service (CA) from the discovery agent a request to authorize the gaming agent (column 10 lines 55-58), providing an authorization response to the discovery agent (column 10 lines 58-82), in response to determining by the discovery agent using the authorization response that the gaming device is authentic and authorized (column 10 lines 58-60), publishing by the discovery agent service information to a service repository to make the gaming service available on the gaming network (column 10 lines 58-62), discovering by the gaming service the availability of the authorization service, and processing one or more service requests between the gaming service and the authorization service (column 10 lines 55-62), said service requests conforming to an internetworking protocol (column 3 lines 20-28).

With regard to claims 2-6 and 16-20, Gatto discloses the authorization service is a web service where service requests are WSDL formatted and UDDI registries are utilized (column 15 lines 33-56).

With regard to claims 7-12 and 21-26, Gatto discloses the authorization service can be local (column 10 lines 55-58).

With regard to claims 13 and 27 Gatto discloses the authorization service returning results (column 10 lines 55-59).

With regard to claims 14 and 28, Gatto discloses returning an access list for a set of client credentials submitted (identification presented) to the authorization service (column 10 lines 55-62).

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
